

Honors I101 Exam I

Take Home

M.M. Dalkilic

September 30, 2008

Directions

- Read the provided article
- Write a problem statement pertaining to its contents
- Provide a 150 word summary (abstract) of the article
- In two pages, discuss the relevancy of integration with respect to: technology, Informatics, amount of growing data
- In one page, critique the article (how well is it written, is it informative (you are *not* the primary audience for this article—please bear that in mind; however, you *are*, since you’re in Informatics), are there solutions provided, *etc.*
- In approximately one page, explain what integration *really* means
- Give the definitions of at least four or five words you were unfamiliar with or uncomfortable with
- For *each* of the above tasks, provide a label or section title so it’s clear what you’re discussing
- Do **not** discuss the article or your answers with each other—even if you’re roommates
- Turn this in (typed, numbered, title page with your name) on Thursday at the *beginning* of class
- Be thoughtful, creative, deliberate. Do not be flippant, dull, desultory
- *hint*: it may be nice to have an introduction and table of contents to your work
